

2023 Climbing Mt.Tsurugi Participant Remarks

Climbing Mt.Tsurugi was truly a remarkable experience. The breathtaking natural beauty, challenging terrain, and the camaraderie among fellow climbers made it an unforgettable journey. The sense of achievement as I reached the summit was indescribable. The TIA team did a fantastic job in organizing this expedition, ensuring our safety and comfort throughout the climb and journey. I would like to express my heartfelt gratitude for this opportunity. It's a wonderful initiative to capture the diverse experiences of climbers.

Thank you once again for making this adventure possible.

Vinayak Shinde (インド)

This was my second time to hike Mt. Tsurugi with TIA. The trip was absolutely great. It encouraged me to spend time and relax in nature. The experience of climbing Mt. Tsurugi's peak was an awesome and unique. Because the journey takes place in October, it is easier and safer to get there than in the winter, when the mountain would be covered with snow and ice. Additionally, Mt. Tsurugi's scenery is very breathtaking in the autumn. I really enjoyed photographing mountain scape and autumn foliage. Even though I got motion sickness on the bus as we went up the mountain, if I get the chance, I'll go on this trip again."
